

Corona Virus Message from Dr. Hornstein  
updated 10/19/2020

Dear Patients,

I hope you are all staying safe and healthy.

Brand Optometry is now open Monday through Saturday with stringent safety protocols in place, including mandatory mask wearing for all doctors, staff and patients, repeated disinfecting of surfaces and glasses frames, and temperature checks upon arrival.

My colleagues, Brand Optometry founder Dr. Movses D'janbatian and Dr. Ida Sarajian are **temporarily** seeing my patients in person for **routine eye exams** as well as **urgent visits**. To schedule an appointment with either of them, please call the **front desk, 818-241-4921**. If you have seen me in the past, all your records are already in the office, so you will have continuity of care.

I am **temporarily** limiting my in-person eye exams to glaucoma management for established patients. To schedule an appointment with me, please call my usual phone number, **818-956-7899**.

I am also available to all established patients for phone and video appointments by calling **818-956-7899**. Please feel free to call me for any reason. I am happy to answer your questions and also to help decide if you need a more in-depth scheduled appointment. Please leave a message and I will return your call as quickly as I can. Please also feel free to email me at [drbrucehornstein@gmail.com](mailto:drbrucehornstein@gmail.com).

I give you all my heartfelt wishes that you and your loved ones stay well.

With warm regards,  
Bruce Hornstein, O.D.
